

WE'VE BEEN PARTNERS WITH WIPING CLOTH MANUFACTURERS AND DISTRIBUTORS FOR OVER 70 YEARS.

Our focus is sourcing textile products directly from mill sources around the globe. Our business is based on four pillars, honed from decades of practical experience:

Wholesale towels and terry wiping products in large volume to distributors, resellers, and buying groups. We import FOB Philadelphia or on direct container basis quickly and efficiently.

Stock over 150 SKUs of commercial-strength microfiber mops and cloths on the east and west coasts. Our lines are designed to hit multiple price-points

Work with clients to design specific towel and microfiber programs per their customers' unique needs. We offer private labeling options with low minimum order quantities.

Arm distributors with a one-stop catalog of commercial terry, microfiber, and textile SKU's in first quality as well as stock lot price-points. Work with clients to develop a profitable product assortment.
